"It is a case of spies, watching spies, watching spies: the cyber triangle between Israel, Russia and US"

Events

18/10/2017

[GDPR Conference | Cyber Security EU 2017 \(Leeds\)](#)

31/10/2017

[European Cyber security Challenge 2017 \(Malaga\)](#)

Cyber Policy, Diplomacy & Legal Framework

- In their first Law Enforcement and Cybersecurity Dialogue, [China and the United States](#) pledged to produce stronger and closer bilateral cooperation in counter-narcotics, cybersecurity, repatriation and other fields.
- The United States and Ukraine conducted the first [United States-Ukraine Bilateral Cyber Dialogue](#) in Kyiv, Ukraine, on September 29, 2017.
- A group of lawyers are pressuring EU legislators to propose rules that could force internet platforms to [hand over data](#) that belongs to another person who had died or is being cared for
- Estonia is hosting a [summit focused on technology issues](#) the 29th September but will have to battle for EU leaders' attention less than one week after the German election, a fresh round of Brexit talks and French President Emmanuel Macron's proposals on the future of Europe.

Video

- [AnsiP: Free flow of data could raise European salaries](#)
- [As Washington accused Moscow of cyber attacks, HP Enterprise let Russia review same software used by Pentagon](#)

- The High Court in Ireland wants the European Court of Justice to decide on a case that could have huge implications on Facebook [data transfers](#) from Europe to the United States.

Cyber Security

- The European Commission will add funds and new powers for the [EU cyber security](#) agency and introduce a range of measures to limit threats from hackers, Commission President Jean-Claude Juncker announced
- How is the [EU executive](#) trying to extend broadband coverage and democratise the internet, as well as protecting our privacy as hacker attacks become more commonplace?
- EU technology chief Andrus Ansip predicted that member states will ask for money from a planned [European emergency fund](#) if they suffer major hacking attacks, despite wariness over the EU stepping up its cyber security plans
- 171,000 Irish firms could be Vulnerable to [Cyber Attacks](#)

Cyber Warfare, Intelligence and Terrorism

- Israeli [intelligence](#) officers looked on real time, as Russian government hackers searched computers around the world for the code names of American intelligence programs.
- North Korea has opened a second [internet connection](#) with the outside world, this time via Russia, a move which cyber security experts said could give Pyongyang greater capability to conduct cyber attacks.
- North Korea vs USA: can Trump use [cyber](#) to stop nuclear weapons?

The Center recommends:

- [Cybertech Rome 2017](#)

- [Cyber Security week 2017](#)

- [Cyberlympics Global Final](#)
